Raleigh, N. C., December 2. The supreme court decides, in the case of the state against Jones, from Rockingham, that under sections 52 and 53 of the new revenue act it is not the duty of the sheriff to make report of tax delinquents to the court, as provided for by this law, until after the day of levying and selling has passed. This fully sustains the attorney general's opinion.

Some of the floors in the capitol are so much decayed that steam cannot be turned on them, so offensive is the odor of the heated timbers.

A republican state office-holder said today: "What fools our people have been-before we have been in office a year, to raise all this row about passes. Judge Starbuck is making things lively for delinquent tax payers in Forsyth county. He makes them all pay the tax and, in addition, the costs, never less than \$10.

A republican says there are now "six parties" in this state-gold democrats, silver democrats, republicans, Russell republicans, Butler populists and Skinner populists.

It is said that the Lynchites, or sanctified band, have acquired a strange dominion over the people of Southport. A preacher, when asked why the churches did not attack these people, said they would raise the cry of persecution. In one house in the village, of only two small rooms, seventeen persons live, sleeping together promiscuously, nine of them being children. It seems to be the duty of the churches to drive these people out of the state. The state authorities have been asked to do so, but have done nothing.

There is not nearly so much enthusiasm here in the anti-saloon movement or league as was at first shown. and its promoters are disappointed.

Two of the numerous fakirs who at the various fairs in the state have so bodly swindled the people, are sent to the penitentiary from Forsyth.

Mrs. Fanny Hayes, who has been in charge of the old woman's home here, goes to Norfolk, and Mrs. Fletcher, of Wilmington, succeeds her.

Engineer Thad Pleasants, of the Seaboard Air Line, gets the \$4,100 damages for injury which the railway agreed to pay in compromise.

Congressman Linney called on Govon the anti-civil service question. Congressman Strowd declares that

Evangelistic Campaign in Onslow County

(Correspondence of The Messenger.) Wards Mill, N. C., December 1. In less than three weeks there have been three new Baptist churches organized with 127 members. The campaign has been led by the noted Evangelist Rev. J. T. Edmundson, of Littleton, N. C. People rode thirty miles last Sunday to hear this great man preach. There have been many professions during the meeting and Rev. Blakely H. Mathews, the Baptist missionary of Onslow county, expects to baptize many more candidates. Mr. Edmundson and Mr. Mathews are now at Christian Hope church in the midst of a fine

TEN PROPOSITIONS

BY THE CUBAN LEAGUE

The Cause of Freedom Retarded by Indirect Aid of Our Government to Spain-The Proposition of Autonomy to Gain Time. The People Demand Recognition of the Cubans-Non Interference by Our Government the Result of Influence of the Money Power

Washington, December 2.-Mr. Berkley Balch, secretary of the Cuban League, appeared before President Mc-Kinley and presented the following arthe government. For this reason the gument in behalf of the Cuban insur-

Mr. President:-We appear before you in the name of those who have died of Cuba, and for those who are still ready to give their lives today or toany position with reference to several ing as we claim, a majority of the people of the United States, who believe in that cause, and demand that their wishes shall now be translated into efficient action by their chosen representatives. Thanks to the power, honor picts the necessity for making the is- and patriotism of the American press, land part of the domains of the United the people today know the essential States and reviews advantages that facts of the Cuban situation. We submit to you, therefore, these ten propositions for your consideration:

1. The three wars in Cuba within this century are proof of a genuine | siding. movement for the extension of democratic principles and the attainment of liberty from a tyrannical, corrupt and alien government.

this government to Spain, the patriots would be further advanced in their

3. Spain has lost Cuba as far as the present population is concerned. If, however, she is permitted to continue the cruel work of exterminating noncombatants, she may possibly reconquer and re-populate the island.

4. If with our passive aid, she unfortunately succeeds in doing this, when another generation comes, the revolution will surely begin again. The govering classes in Spain of all parties have regarded Cuba for 300 years as an orange to be squeezed. They are unable to consider it otherwise and no amount of diplomatic effort on our part is likely to change their point of view. The other classes are ignorant. Spain has held all her colonies with an iron hand until forced to let go. The war of liberation in Venezuela lasted fifteen years and during the last five years of either side.

5. Autonomy is a foolish dream. It is evident that neither side understands it, wishes it, or can administer it. It and to gain time.

6. A majority of the people of this country desire to see a free and independent Cuban republic. An opposing on the door was broken and the door factor of great force is the money power. It is a fair conclusion to urge, that a majority of our people believe that the assistance of our government, till now, has been given to Spain and withheld from the republic, on account of the influence that eminates from great financial interests, usually afraid of patriotic aggressive movements.

7. Our people have hoped for favorable action for Cuba from the present administration and have patiently for consideration of the wise road to this end. That patience is now ex-

8. Very few Cubans and still fewer people of this country desire immediate annexation; but independence is clearly due to Cuban valor and sacrifices. 9. The friendship of the republic of Cuba is worth vastly more to us than that of Spain, for reasons of business and defense. It is our duty and selfand, logically follow this, the independence of the republic, and to conclude with a defensive and offensive alliance. If this is not compatible with a continued friendship with Spain, so much the worse for Spain. If Spain attacks us we can take care of our own.

10. Out of the experience of our work and from the study of over twenty years this league asserts that these ten propositions are true and that their right understanding leads to the only action which will solve the problem.

And now, Mr. President, in behalf of those we represent, we thank you for this opportunity to present their views. We hope for such action on your part as will bring a correct solution. We desire to state that this league and our sympathizers have "enlisted for the war" or until such times as the republic of Cuba shall become a fact in his-The president said he would give the

Fraud Cases Dismissed

Birmingham, Ala., December 2.-In the federal court today nine cases against Major W. H. Hunter, three against Sandy White and six against C. C. Reed, charged with presenting false claims against the government

Four years ago the federal grand jury here made sensational charges of wholesale frauds against the government by federal officials in North Alabama alleging that the government had been defrauded out of about \$100,000 by false claims by commissioners and deputy marshals. The treasury department sent two examiners to investigate. As a result two commissioners and eight deputy marshals were indicted.
